

PRESSURE BOOSTER

DP-K-012-000010 // 2 liters compressed air reservoir

DP-K-012-000011 // 5 liters compressed air reservoir

2 liters compressed air reservoir

3 liters compressed air reservoir

Pneumatic pressure booster used for targeted increase of operating pressure. The desired output pressure can be set manually on the pressure regulator. The pressure booster compensates for pressure fluctuations between the inlet and outlet pressure.

TECHNICAL DATA

Type	2 liters compressed air reservoir	5 liters compressed air reservoir
Constructive structure	double piston pressure intensifier with air reservoir and check valve	double piston pressure intensifier with air reservoir and check valve
Pressure display	with pressure gauge	with pressure gauge
Outlet pressure	4.5–10 bar	4.5–10 bar
Operating pressure	2.5–8 bar	2.5–8 bar
Pressure control range	4.5–10 bar	4.5–10 bar
Inlet pressure	2–8 bar	2–8 bar
Weight	4400 g	7300 g
