

PROPORTIONAL DOSING VALVE PDV04 ACCESSORIES

SPRAY ATTACHMENT FOR PDV04 WITH ACCESSORIES

DP-D-005-000050

APPLICATION

The spray attachment is mounted directly on the PDV04 and enables contactless, homogeneous and repeatable application of media with low to high viscosity.

DESCRIPTION

Volumetric dosing ensures reliable quantity application, regardless of the viscosity of the dosing medium.

The web speed-controlled application, simple dosing quantity adjustment and the optional control of pre- and post-air offer maximum control over the application. The attachment is compatible with all standard nozzles, air caps and nozzle extensions of our spray valves.

The set consists of

- ▶ Spray attachment PDV04 DP-D-005-000051
- ▶ Atomizing air pressure control DP-D-005-000052
- ▶ Atomizing air solenoid valve DP-D-005-000053

ADVANTAGES

- ▶ Contactless, precise dosing for media with variable viscosity
- ▶ Reliable quantity application regardless of the viscosity of the dosing medium
- ▶ Simple adjustment of the dosing quantities via the control unit
- ▶ Path speed-controlled application for flexible use
- ▶ Compatibility with standard nozzles, air caps and nozzle extensions
- ▶ Versatile use for a wide range of applications

TECHNICAL DATA

Weight	0.2 kg
Width x height x depth	84 x 56.5 x 48 mm
Connection atomizing air	0–6 bar (precision pressure regulator)
Material outlet	nozzles 0.3–2.5 mm
Connection material outlet	M21 x 0.75
